# CORE VALUES

## **MECHANICAL, ELECTRICAL & PLUMBING ENGINEERING, PROJECT MANAGEMENT AND COMMISSIONING SOLUTIONS.**

Sutton Engineering, LLC is an MEP design firm dedicated to providing excellence in all aspects of engineering services.

At SE, our clients are the lifeblood of everything we do, driving the 'why' behind each of our core values. Our close collaboration and honest communication with clients is not only essential throughout any project lifecycle but is paramount within the teams that make up the culture here at Sutton Engineering.

Because we are better together, we work closely across disciplines to bring you the most innovative and efficient solutions tailored to each client's unique needs, timeline, and budget. This mindset allows us the flexibility to keep up with our client's evolving needs and preferences, industry trends, and market dynamics.

**With you in mind, we are unyielding in our commitment to:**

### **COLLABORATIVE**

We are curious about what we do not know and are generous with what we do.

### **HOSPITALITY**

Completing projects on time and accurately is a service. Genuinely engaging with our clients and establishing authentic and lasting connections is hospitality.

### **THE PURSUIT OF EXCELLENCE**

"It may not be possible to do everything perfectly, but it is possible to do many things perfectly. That's the very definition of excellence: getting as many details right as you can." – Will Guidara

### **INNOVATIVE**

We are proud of the way we do things and it's integral to our process. This doesn't mean we couldn't be doing it better, more efficiently, or more creatively when it comes to meeting our client's unique needs. Evolution is key.

### **ENGAGED**

To engage with others is to build trust, loyalty, and a sense of community. It's not about being perfect; it's about being present.
